

## How To Guide To Make Your Own Social Media Post

### Using The “Days God Gave” Template

1. Open the Template Link – (<https://canva.link/7n3m30eqqqju3og>)  
Click the link and select “Use template.” This makes your own editable copy!
2. Replace the Photos
  - Click on any picture in the collage
  - Click “Edit photo” → “Replace” (or just drag your photo on top)
  - Upload your own photos and swap them in
  - Repeat until all images are yours
3. Adjust Photo Positioning
  - Double-click a photo to move or zoom it inside the frame
  - Drag to center faces or important parts
  - Use the top bar to change font, size, or color if you want
4. Keep or Change the Layout Style
  - The overlapping “polaroid” collage look is already set
  - You can move photos slightly if needed, but try to keep the layered style for the same effect
5. Optional: Change Background or Colors
  - Click the background (yellow area) to change the color
  - Or leave it as-is for a warm, scrapbook feel
6. Add or Remove Photos
  - Delete any frames you don’t want
  - Add more by going to Elements → Frames if needed
7. Download Your Finished Design
  - Click “Share” → “Download”
  - Choose PNG or JPG for best quality
  - **NOW SHARE YOUR IMAGE ON SOCIAL MEDIA! CHOOSE THE SONG, “DAYS GOD GAVE” FROM MATT HAMMITT TO GO WITH YOUR POST! AND USE THE #HASTAGS – #DAYSGODGAVE AND #SENIORSUNDAY**
